TITLE: Mad Science - Science Enrichment Programs

ELIGIBILITY: JK - 4th grade

DESCRIPTION: Mad Science is a leading science enrichment provider, delivering unique, hands-on science experiences for children that are as entertaining as they are educational. Mad Science encourages scientific literacy in children in an age when science is as vital as reading, writing and arithmetic and we don’t stop there. For over 25 years, we have invested in research and development and continue to do so. We believe in the importance of being at the forefront of our industry and continue to create hands-on science programming for kids. Our approach to teaching science invites children to pursue STEM careers.

Mad Science offers hands-on science after school programming where students engage in exciting hands-on activities, watch spectacular demonstrations, participate in inquiry-based discussions and take home things that they have made themselves like model rockets, periscopes, Mad Science slime, and more! Programs are themed around a particular area of science and include such topics as electricity, magnetism, optics, biology and many more. Visit northillinois.madscience.org for more details.

LEADER: Mad Science of Northern Illinois - (224) 676-1635
